INVESTOR PRESENTATION

Forward Looking Statements

Certain statements and information in this presentation may constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Terms such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “foresee,” “intend,” “may,” “plan,” “predict,” “project,” “scheduled,” “should,” “would,” and similar expressions and the negatives of such terms are intended to identify forward-looking statements. These statements are based on management’s beliefs, assumptions, and expectations based on currently available information, are not guarantees of future performance, and involve certain risks and uncertainties (some of which are beyond our control). Although we believe that the expectations reflected in these forward-looking statements are reasonable as and when made, we cannot provide assurance that our expectations will prove to be correct. Actual outcomes and results could materially differ from what is expressed, implied, or forecasted in these statements due to a number of factors, including, but not limited to: a failure of our information systems, including disruptions or failures of services essential to our operations or upon which our information technology platforms rely, data breach, and/or cybersecurity incidents; the ability to maintain third-party information technology systems or licenses; widespread outbreak of an illness or any other communicable disease and the effects of pandemics, including the COVID-19 pandemic, or any other public health crisis; regulatory measures that may be implemented in response to widespread illness, including the COVID-19 pandemic; ineffectiveness of our business continuity plans to meet our operational needs in the event of adverse external events or conditions; untimely or ineffective development and implementation of, or failure to realize potential benefits associated with, new or enhanced technology or processes, including the pilot test program at ABF Freight, and any write-offs associated therewith; the loss or reduction of business from large customers; competitive initiatives and pricing pressures; general economic conditions and related shifts in market demand, including the impact of and uncertainties related to the COVID-19 pandemic, that impact the performance and needs of industries we serve and/or limit our customers’ access to adequate financial resources; the ability to manage our cost structure, and the timing and performance of growth initiatives; relationships with employees, including unions, and our ability to attract, retain, and develop employees; unfavorable terms of, or the inability to reach agreement on, future collective bargaining agreements or a workforce stoppage by our employees covered under ABF Freight’s collective bargaining agreement; our ability to secure independent owner operators and/or operational or regulatory issues related to our use of their services; availability and cost of reliable third-party services; availability of fuel, the effect of volatility in fuel prices and the associated changes in fuel surcharges on securing increases in base freight rates, and the inability to collect fuel surcharges; governmental regulations; environmental laws and regulations, including emissions-control regulations; union employee wages and benefits, including changes in required contributions to multiemployer plans; litigation or claims asserted against us; the loss of key employees or the inability to execute succession planning strategies; maintaining our intellectual property rights, brand, and corporate reputation; default on covenants of financing arrangements and the availability and terms of future financing arrangements; timing and amount of capital expenditures; self-insurance claims and insurance premium costs; increased prices for and decreased availability of new revenue equipment, decreases in value of used revenue equipment, and higher costs of equipment-related operating expenses such as maintenance, fuel, and related taxes; potential impairment of goodwill and intangible assets; the cost, integration, and performance of any recent or future acquisitions; seasonal fluctuations and adverse weather conditions; regulatory, economic, and other risks arising from our international business; acts of terrorism or war, or the impact of antiterrorism and safety measures; and other financial, operational, and legal risks and uncertainties detailed from time to time in ArcBest’s public filings with the Securities and Exchange Commission (“SEC”).

For additional information regarding known material factors that could cause our actual results to differ from our projected results, please see our filings with the SEC, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statements after the date they are made, whether as a result of new information, future events, or otherwise.

COVID-19 PANDEMIC

ArcBest Provides Solutions To Our Customers' Challenges

The initial impact of the coronavirus pandemic was swift, and its ultimate impact is still unknown

As a global logistics provider, ArcBest takes great pride in being an essential business that allows us to serve our customers as they continue to deal with pandemic-related challenges

ArcBest positively responded by serving these logistics needs:

- COVID-19 test kits moving to testing locations
- Hand sanitizer moving from multiple customers
- Plastic masks destined to National Guard units in Indiana
- Ventilators destined to hospitals
- Providing equipment and drivers to governmental agencies dealing with the pandemic
- Early staging of emergency shipments for the State of Michigan
- Face shields for distribution in Indiana
- Critical building supplies moving to hospitals related to the virus

COVID-19 PANDEMIC

Cost Cutting Steps Taken By ArcBest

In 2Q’20, the COVID-19 pandemic negatively impacted demand for our services. Since late 2Q’20, shipment and tonnage levels have improved.

ArcBest entered this uncertain environment in a solid financial position that was further enhanced by our late March actions that included drawdowns:

- Equaling $180 million from the bank credit agreement
- Equaling $45 million under the Accounts Receivable Securitization Program
- Cash and short-term investments were $574 million at the end of second quarter 2020

Beginning in April 2020, we:

- Implemented a 15% reduction in the salaries, wages or work hours of all officers and nonunion employees
- 15% reduction in the fees paid to ArcBest’s board members
- Implemented a hiring freeze
- Suspended the employer match of ArcBest’s nonunion 401(k) Plan
- Reduced other costs to better align with current business.

In 3Q’20:

- The 15% reductions in salaries and board member fees were restored.
- The employer match of ArcBest’s nonunion 401(k) Plan was restored at the beginning of August 2020.
- The $180 million pandemic-related drawdown on our revolving credit facility was repaid.
- The total $85 million borrowed under the Accounts Receivable Securitization Program was repaid.

BALANCED CAPITAL ALLOCATION

BALANCED CAPITAL STRATEGY

GROWTH AND OPERATING INITIATIVES

- Capital investments consistent with service initiatives and strategy
- Invest in operational efficiencies and innovation
- Selective tuck-in and strategic acquisitions

SOLID FINANCIAL POSITION[1]

- Cash Balance: $351M ($59M Net Cash)
- Debt Maintenance: 1.2X Debt to LTM EBITDAR[2]
- Total liquidity: $644M

RETURN OF CAPITAL TO SHAREHOLDERS

- Dividend of $0.32 per share (annual)
- Share repurchase: $7.5M remains available

1) Financial position at 9/30/20
2) Adjusted EBITDA and EBITDAR are primary components of the financial covenants contained in ArcBest Corporation's Amended and Restated Credit Agreement. Management believes Adjusted EBITDA and EBITDAR to be relevant and useful information, as EBITDA and EBITDAR are standard measures commonly reported and widely used by analysts, investors, and others to measure financial performance and ability to service debt obligations. Furthermore, management uses EBITDA and Adjusted EBITDA as key measures of performance and for business planning. However, these non-GAAP financial measures should not be construed as better measurements than operating income (loss), operating cash flow, net income (loss), or earnings (loss) per share, as determined under GAAP. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results. Other companies may calculate EBITDA and EBITDAR differently; therefore, our Adjusted EBITDA and EBITDAR may not be comparable to similarly titled measures of other companies.

NOTES TO NON-GAAP FINANCIAL TABLES

The following footnotes apply to the non-GAAP financial tables in the previous slide.

1) Noncash impairment charge recognized in fourth quarter 2019 relates to a portion of the goodwill, customer relationship intangible assets, and revenue equipment associated with the acquisition of truckload brokerage and truckload dedicated businesses within the ArcBest segment.
2) Represents costs associated with the freight handling pilot test program at ABF Freight.
3) The three months ended September 30, 2019 and the year ended December 31, 2019 include impairment charges related to equipment replacement and other one-time costs incurred to comply with the electronic logging device (“ELD”) mandate which was effective December 2019.
4) The three months ended September 30, 2019 and the year ended December 31, 2019 include a one-time consulting fee associated with the termination of the nonunion defined benefit pension plan.
5) The year ended December 31, 2018 includes a one-time charge for the multiemployer pension plan withdrawal liability resulting from the transition agreement ABF Freight entered into with the New England Pension Fund.
6) Restructuring charges relate to the realignment of the Company’s organizational structure as announced on November 3, 2016.
7) Gain recognized in 2018 relates to the sale of the ArcBest segment’s military moving businesses in December 2017.
8) Nonunion pension expense is presented as a non-GAAP adjustment with pension settlement expense, because expenses related to the plan have been excluded from the financial information management uses to make operating decisions, as the nonunion defined benefit pension plan was amended to terminate the plan with a termination date of December 31, 2017. Pension settlements related to benefit distributions for the plan termination began in fourth quarter 2018 and were completed in third quarter 2019. The three months ended September 30, 2019 and the year ended December 31, 2019 also include a noncash pension termination expense related to an amount which was stranded in accumulated other comprehensive income until the pension benefit obligation was settled upon plan termination. The year ended December 31, 2019 also includes pension settlement expense of $0.3 million after-tax, or $0.01 per diluted share, related to the Company's supplemental benefit plan..
9) Represents the tax impact of the vesting of share-based compensation resulting in excess tax expense (benefit).
10) Impact on current or deferred income tax expense as a result of recognizing the tax effects of the Tax Cuts and Jobs Act (“2017 Tax Reform Act”) that was signed into law on December 22, 2017.
11) The year ended December 31, 2019 includes a $1.4 million research and development tax credit recognized in the tax provision during fourth quarter 2019 which primarily relates to years prior to 2019 and includes a $1.2 million alternative fuel tax credit related to the year ended December 31, 2018 which was recorded in fourth quarter 2019 due to the December 2019 retroactive reinstatement. The non-GAAP adjustment for the year ended December 31, 2018 represents the amount of the alternative fuel tax credit related to the year ended December 31, 2017 which was recorded in first quarter 2018 due to the February 2018 retroactive reinstatement.
12) Non-GAAP EPS is calculated in total and may not foot due to rounding.

Consolidated Cash Flow

	In Millions TTM 9/30/20
Cash and Short-term Investments, beginning of period	**$ 308**
Net Income	41
Depreciation and amortization [(a)]	117
Pension settlement expense and amortization of actuarial losses on benefit plans and share-based compensation	10
Net change in other assets and liabilities [(b)]	13
Cash from operations	**$ 181**
Purchase of property, plant and equipment, net	(103)
Proceeds from Equipment Financings	92
Internally developed software	(12)
Free Cash Flow [(c)]	**$ 158**
Payment of debt	(100)
Purchase of treasury stock	(9)
Dividend	(8)
Other	2
Cash and Short-term Investments, end of period	**$ 351**

(a) Includes amortization of intangibles

(b) Includes changes in working capital, timing of month end clearings, and income tax payments.

(c) Free cash flow is a non-GAAP financial measure previously defined in this presentation. Free cash flow should not be construed as a better measurement than net cash provided by operating activities as determined under GAAP. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results. Other companies may calculate free cash flow differently; therefore, our free cash flow may not be comparable to similarly titled measures of other companies.

ASSET-BASED

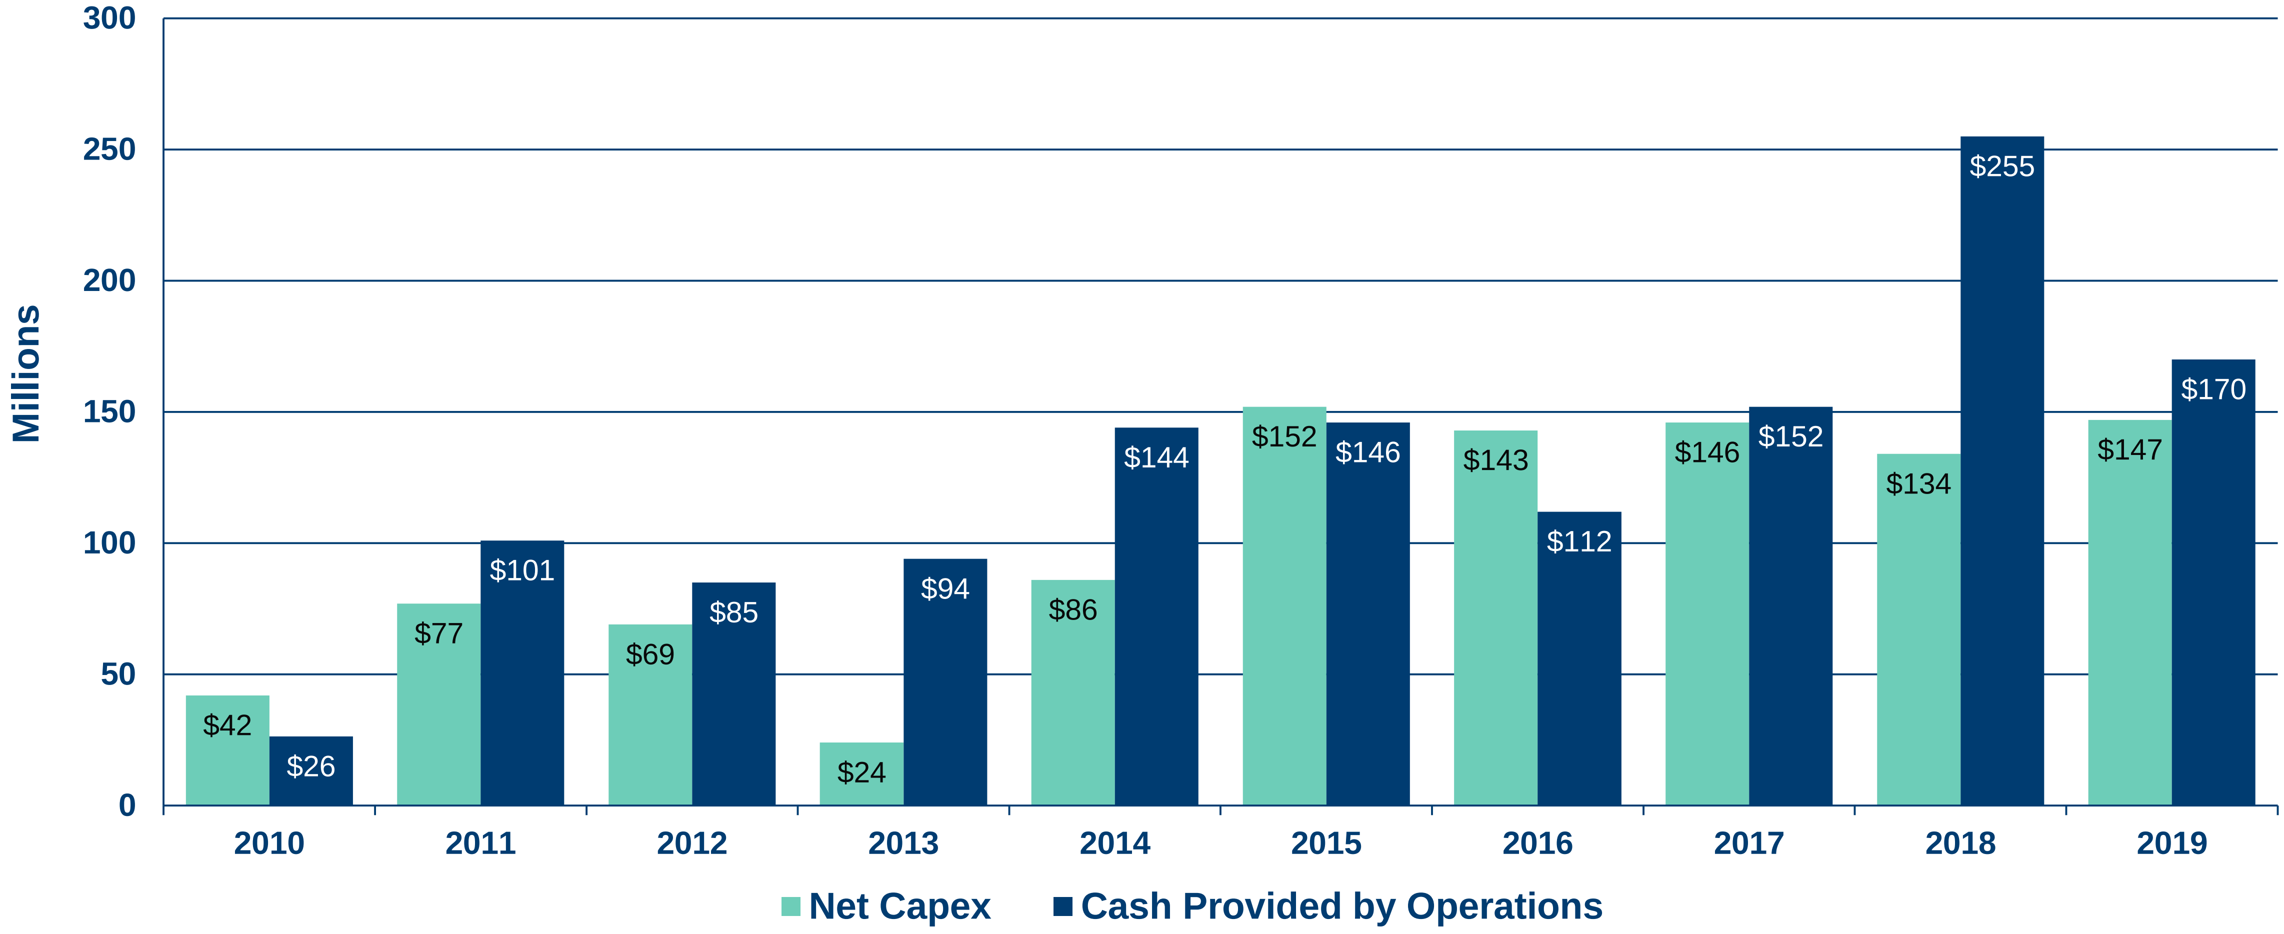
*ArcBest Non-GAAP Operating Income presented above is adjusted for:

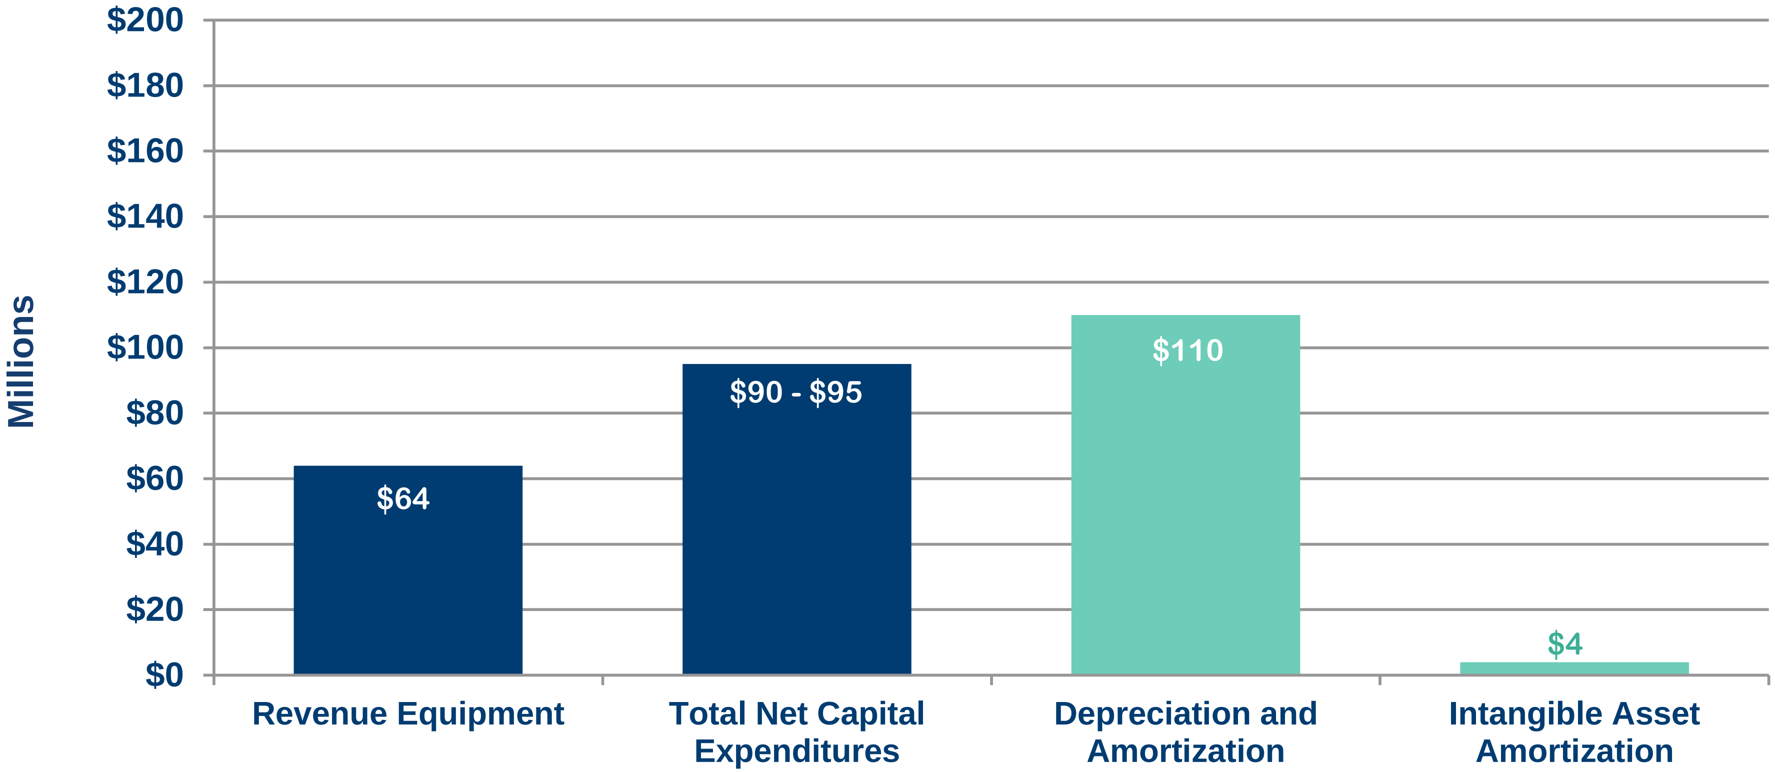
- Asset impairment of $26.5 (pre-tax) for the twelve months ended December 31, 2019.
- Restructuring charges of $0.5 million (pre-tax) for the twelve months ended December 31, 2018.
- Gain on sale of subsidiaries of $1.9 million (pre-tax) for the twelve months ended December 31, 2018.

NET CAPITAL EXPENDITURES VS. OPERATING CASH



Note: Capital expenditures are presented net of proceeds from the sale of property, plant and equipment.
Net Capex figures include ABF Freight's revenue equipment acquired through notes payable and capital leases.

2020 NET CAPITAL EXPENDITURES (estimated)



As previously announced, our recent actions to preserve cash and lower costs to mitigate the financial impact of the COVID-19 pandemic on our business include a reduction of our 2020 capital expenditure plan by approximately 30%, including a reduction in revenue equipment purchases of $18.0 million. Our total capital expenditures for 2020, including amounts financed, are now estimated to range from $90 million to $95 million, net of asset sales. These 2020 estimated net capital expenditures include revenue equipment purchases of $64.0 million, primarily for our Asset-Based operations. The remainder of 2020 expected capital expenditures include real estate projects, costs of other facility and handling equipment for our Asset-Based operations, including forklifts, and technology investments across the enterprise. We have the flexibility to adjust certain planned 2020 capital expenditures as business levels dictate. Depreciation and amortization expense, excluding amortization of intangibles, is estimated to be approximately $110 million in 2020.

Asset-Based Segment

October 2020 Business Update

Statistics for October 2020 have not been finalized. Preliminary Asset-Based financial metrics and business trends for October 2020, compared to the same period last year, are as follows:

- Total Tonnage/Day increased approximately 10% with a double-digit percentage increase in LTL-rated tonnage and mid-single-digit percentage increase in truckload-rated spot shipment tonnage moving in the Asset-Based network.
- Total Billed Revenue/CWT decreased approximately 1%, impacted by lower fuel surcharges and freight mix changes, including the effect of heavier shipments.
- Pricing on traditional published LTL-rated business, excluding fuel surcharge, which does not include transactional LTL-rated shipments, increased by a percentage in the low-single digits compared to October 2019.
- Total Billed Revenue/Shipment increased approximately 8%.
- Total Weight/Shipment increased approximately 9%, primarily reflecting business mix changes and, to a lesser extent, changes in freight mix.
- In recent years, the historical average sequential change in ArcBest's Asset-Based operating ratio in the fourth quarter, versus the third quarter, has been an increase of approximately 200 basis points.

ADDITIONAL DETAILED INFORMATION

Asset-Based Segment

Annual Union Profit-Sharing Bonus

- As provided in ABF Freight's current Teamster labor contract, for the full years of 2019 through 2022, ABF Freight's Teamster employees are eligible for an annual profit-sharing bonus, as shown in the following table. The operating ratio ("OR") used to calculate the bonus amount is on a GAAP basis. The potential bonus would be based on full-year union employee earnings. While impacted by business and associated labor levels which are subject to change, the estimate of one percent of the annual earnings for the ABF Freight union employees who are eligible for this benefit approximates $5 million of union bonus expense.

- During years in which ArcBest's internal forecasts indicate an expectation of paying the union bonus, we will accrue for this expense throughout the year, generally in proportion of the quarterly results as a percentage of the annual projection. As we do not provide public updates on our projected operating ratio or our expectations for paying the union bonus, any details of amounts accrued will not be provided. If financial models reflect an operating ratio that meets the payout thresholds shown below, ArcBest encourages analysts to include expenses for the union bonus in quarterly and annual earnings per share projections for the company.

ABF Freight Published Annual OR	Bonus Amount
95.1 to 96.0	1%
93.1 to 95.0	2%
93.0 and below	3%

ADDITIONAL DETAILED INFORMATION

<u>ArcBest Consolidated</u>

Tax Rate

- ArcBest's third quarter 2020 and 2019 effective GAAP tax rates were 24.9% and 30.3%, respectively. .
- ArcBest currently expects the full year 2020 GAAP tax rate to be approximately 25%, while the effective rate in the fourth quarter may be impacted by items discrete to that period.
- The "Effective Tax Rate Reconciliation" table on Page 11 of ArcBest's third quarter 2020 earnings press release in Exhibit 99.1 shows the reconciliation of GAAP to non-GAAP effective tax rates.
- The non-GAAP effective tax rates of 26.2% for third quarter 2020 and 26.1% for third quarter 2019 were used to calculate the non-GAAP net income and EPS amounts for the respective quarters.

The following information was included in an exhibit of an ArcBest 8-K filed on 11/3/20.

ADDITIONAL DETAILED INFORMATION

ArcBest Consolidated

“Other and eliminations” within Operating Income on the Operating Segment Data and Operating Ratios statement

- The “Other and eliminations” line includes expenses related to shared services for the delivery of comprehensive transportation and logistics services to ArcBest’s customers. Shared services represent costs incurred to support all segments including sales, yield, customer service, marketing, capacity sourcing functions, human resources, financial services, information technology, legal and other company-wide services. Shared services are primarily allocated to the reporting segments based upon resource utilization-related metrics, such as shipment levels, and therefore fluctuate with business levels. As a result, the loss in this line tends to be higher in periods when business levels are lower, and consequently allocations to operating segments are lower, which is typically during the first and fourth quarters of the year.

The following information was included in an exhibit of an ArcBest 8-K filed on 11/3/20.

ADDITIONAL DETAILED INFORMATION

ArcBest Consolidated

“Other, net” line within Other Income (Costs) on the Consolidated Statements of Operations

- Subsequent to the September 30, 2019 substantial liquidation of ArcBest’s nonunion pension plan, the “Other, net” line of ArcBest’s income statement primarily includes the costs associated with postretirement plans and changes in cash surrender value of life insurance. After excluding non-GAAP items detailed in the table below, ArcBest expects the non-GAAP “Other net” expense to approximate \$0.1 million in 4Q’20 and \$0.1 million for full year 2020 versus \$0.1 million in 4Q’19 and \$1.6 million for full year 2019. The lower expense in 2020 as compared to 2019 is primarily due to lower expected postretirement plan expense.
- Changes in cash surrender value of life insurance reflected an increase of \$1.5 million in 3Q’20 compared to an increase of \$0.6 million in 3Q’19. This change was an indication of the 3Q’20 market gains experienced on these assets. ArcBest excludes changes in cash surrender value when presenting non-GAAP net income and EPS.

(1) Operating Income for 2016-2017 has been adjusted for the January 1, 2018 adoption of an amendment to ASC Topic 715 which requires the components of net periodic benefit cost other than service cost for our pension, SBP and postretirement plans to be presented within Other Income (Costs) in the consolidated financial statements and, therefore, excluded from Operating Income presented in this table. (The 2017 amounts presented were adjusted for the change in presentation of net periodic benefit costs in the 2018 financial statements to conform with the current year presentation.)

(2) Restructuring charges relate to the realignment of the Company's organizational structure announced on November 3, 2016.

(3) Transaction costs associated with the September 2, 2016 acquisition of Logistics & Distribution Services, LLC.

(4) Represents a one-time charge recognized in June 2018 for the multiemployer pension fund withdrawal liability resulting from the transition agreement ABF Freight, Inc. entered into with the New England Teamsters and Trucking Industry Pension Fund.

(5) Gains associated with the December 2016 and December 2017 divestures of moving services subsidiaries for which the gains were recognized in third quarter 2017 and 2018, respectively, when the contingent consideration was received on the transactions.

(6) Costs associated with the freight handling pilot test program at ABF Freight announced in third quarter 2019.

(7) Impairment charges related to equipment replacement and other one-time costs incurred to comply with the electronic logging device ("ELD") mandate which will be effective in December 2019.

(8) Noncash impairment charge recognized in fourth quarter 2019 relates to a portion of the goodwill, customer relationship intangible assets, and revenue equipment associated with the acquisition of truckload brokerage and truckload dedicated businesses within the ArcBest segment.

(9) Consulting fee incurred in third quarter 2019 associated with the termination of the nonunion defined benefit pension plan.

(10) Non-GAAP amounts are calculated in total and may not foot due to rounding.

Note: ArcBest Corporation reports its financial results in accordance with generally accepted accounting principles ("GAAP"). However, management believes that certain non-GAAP performance measures utilized for internal analysis provides analysts, investors, and others the same information that we use internally for purposes of assessing our core operating performance and provides meaningful comparisons between current and prior period results, as well as important information regarding performance trends. Accordingly, using these measures improves comparability in analyzing our performance because it removes the impact of items from operating results that, in management's opinion, do not reflect our core operating performance. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results. These financial measures should not be construed as better measurements than operating income (loss), operating cash flow, net income (loss) or earnings (loss) per share, as determined under GAAP.
